A World-Class Exhibition

The Euro PM2017 Exhibition will be the heart of the event for visitors and delegates alike and is conveniently located within the Milano Congressi (MiCo). The venue's compact exhibition space will contain the annual PM exhibition making it the largest dedicated powder metallurgy and associated supply chain exhibition in 2017. The exhibition area, boasting over 125 companies that represent all aspects of the PM supply chain, will be on hand to showcase their most recent developments, products and services. The 3-day exhibition, Monday through Wednesday, will feature raw material suppliers, furnace equipment manufacturers and tooling producers, who will be available to discuss new and potential business opportunities with you. Having the PM supply chain in one place will enable networking maximisation and ensure productive dialogue for all concerned.

Register online today at: www.europm2017.com/visitor
Your promo code is: EuroPM17-065

*This voucher entitles the bearer complimentary access to the Euro PM2017 exhibition only. Access to the Technical Sessions and selected additional events can be purchased separately in advance at europm2017.com or on-site at the registration desk.

The place to be for all things PM

Following the success of World PM2016 in Hamburg, the European Powder Metallurgy Association (EPMA) are proud to host Euro PM2017 at Milano Congressi, in the heart of Milan, Italy. Whether you are interested in Additive Manufacturing, Hot Isostatic Pressing, Press and Sinter or Metal Injection Moulding, this is the place to talk about all things related to powder metallurgy (PM) in 2017.

The Euro PM2017 Exhibition will cover all areas of the PM supply chain from equipment manufacturers, powder suppliers and end-users from around the globe, who will be available to welcome you to understand how PM can benefit you and the components and applications you are currently using.
